

CHIMALA SHALINI

Software Engineer Intern

Hyderabad, Telangana, India (Open to relocation – Bengaluru) | +91 9701618542 | chimalashalini@gmail.com | linkedin.com/in/shalini76 | github.com/Shalini-576-cse

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student and MERN stack developer with hands-on experience building and deploying scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in JavaScript, RESTful API development, JWT-based authentication, database design, and mobile-friendly UI development. Worked in an Agile team, participating in sprint planning and daily stand-ups during an internship. Experienced with Git, GitHub, Postman, and deployment platforms including Vercel and Render. Strong problem-solving mindset with a proven ability to write clean, reusable code and quickly learn new technologies in a collaborative environment.

TECHNICAL SKILLS

Frontend: React.js, React Hooks, Context API, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Development, JWT Authentication, Middleware

Database: MongoDB, Mongoose, SQL

Tools & Platforms: Git, GitHub, GitHub Actions (CI/CD), VS Code, Postman, Vercel, Render, Docker

Concepts: REST APIs, CRUD Operations, MVC Architecture, Authentication & Authorization, API Integration, Agile Development, MERN Stack

Programming Languages: JavaScript, Python, SQL

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern — Thiranex (Remote) *Apr 2026 – May 2026*

- Collaborated in an Agile/Scrum team environment, participating in sprint planning and daily stand-ups to deliver features on schedule.
- Developed 3 responsive web pages using React.js and Bootstrap, aligning layouts across desktop and mobile breakpoints.
- Designed and integrated 10 RESTful API endpoints using Express.js and Node.js to support core application features.
- Managed MongoDB collections for user authentication and application data storage and retrieval.

PROJECTS

FocusFlow – Task Management Application | *React.js, Node.js, Express.js, MongoDB*

- Built a task management application with JWT-based authentication and complete CRUD functionality.
- Built interactive user interfaces in React.js and integrated RESTful APIs with MongoDB for real-time data handling.
- Independently managed project planning and development, improving overall application performance.
- Set up a CI/CD pipeline using GitHub Actions to automatically run build checks on every push.

Blog Platform | *MERN Stack (React.js, Node.js, Express.js, MongoDB)*

- Engineered a blogging platform with JWT-based authentication for secure login and registration.
- Designed and implemented RESTful API endpoints for posts, comments, and user management.
- Optimized layout and styling for consistent display across desktop and mobile screens.

Email Spam Detection | *Python, Machine Learning*

- Implemented a machine learning model to classify emails as spam or non-spam using Python.
- Performed data preprocessing, feature extraction, and model evaluation to improve prediction accuracy.
- Optimized model performance through iterative testing and analysis of evaluation metrics.

EDUCATION

B.Tech, Computer Science Engineering (CGPA: 6.7) — Narsimha Reddy Engineering College *2023 – Present*

Intermediate (MPC) — St. Francis Junior College *2021 – 2023*

CERTIFICATIONS

- Python Course — GeeksforGeeks
- AI Tool Workshop — B10x

AWARDS & RECOGNITIONS

- Hackathon Certificate, Forge Ascend — 24-Hour Hackathon (2026)
- Built 3 independent web applications using React.js, Node.js, Express.js, and MongoDB.

Languages: English, Telugu, Hindi
